

“How Long Will America Last” Part 2 Jeremiah 12:10-13; Jeremiah 23

Nations fall into one form of slavery or another when their military fails and nations maintain their peace when their military succeeds.

Unbelievers who've rejected God's grace provision for salvation must face the alternative to grace, which is always judgment.

And Just as Judah was broken into pieces, we in our country today are violating the LORD's principles of national survival and therefore we're in the process of being broken into pieces!

Our country at this particular time is in great jeopardy of repeating the failure of Israel.

No nation has ever survived the rise of pacifism or the destruction of its military!

Unlike Jeremiah, who knew when Judah would fall, we, as victims of a similar conspiracy, do not know when our country will fall and go into slavery but just as certain as you are hearing this, if we continue our present disaster course, America will be in slavery sooner rather than later.

Our military service is just as necessary to our freedom as the Bill of Rights since it's the military that saves our freedom to enjoy the Bill of Rights and keep it in existence.

There is and never will be any such thing as world peace until the Lord Jesus Christ returns to the earth as He said there would be wars and rumors of wars until He returns.

No matter what your race, this country was designed to reward perseverance, ability, honesty, integrity and hard work and if you are bogged down with racial issues, you're aiming far too low in adopting a human standard.

It takes great character, deep-seated courage, extensive training, persistent self-discipline and unwavering moral fiber to be successful in any form of battle!

The emotions were meant to be the appreciator of our souls but when our emotions start to dominate our thinking, we have an emotional revolt within our souls and this is where the destructive desolation begins.

Any nation that has freedom can use its freedom; either to maintain its freedom or to destroy its freedom.

The reason for the decline in Judah was the fact that the people neither took in biblical truth nor established it in their hearts; it's the Word of God in the heart that delivers the people of any nation.
