

## “Happy Spiritual Independence Day”

Spiritual self-esteem combines with impersonal love to produce a remarkable thoughtfulness of others which is the virtue of being considerate by looking out for their comfort and welfare. Spiritual independence is a continuation of contentment or a sharing of the happiness of God as a major grace solution to our problems in life.

Our lasting happiness begins in spiritual self-esteem, gains momentum in spiritual independence and reaches its peak in spiritual maturity; God’s happiness in us is our victory over circumstances!

Sharing God’s happiness gives us the ability to be truly joyous with or without prosperity and even while suffering because it provides us with the solution to all of the problems people have in constantly becoming slaves to their circumstances; God’s gift of His happiness to us is our victory over our circumstances!

Mental stability is a key issue in the spiritual life, as spirituality is a mental attitude produced by the filling of the Holy Spirit inside God’s experiential plan for us which also includes the application of biblical truth which has been learned and processed.

Our Father’s calculated providential suffering graciously sent to us has filtered out the last drops of arrogance, so laser focus on the Lord Jesus Christ at spiritual self-esteem guarantees that our spiritual independence will be genuine.

Spiritual independence is comprehensive self-confidence from learning, believing and applying biblical truth, so that we have a tremendous amount of divine viewpoint that can be used in pressure situations as well as normal situations

There are many ways people use their own abilities to try to solve their problems but grace-oriented problem-solving in spiritual independence does not rely on any human abilities.

Our spiritual independence makes for greater decisions from a position of strength and our right thinking results in us having the right motivation which results in us making the right decisions which ultimately results in us performing the right actions.

Each category of suffering we face for the purpose of blessing requires many good decisions and each stage of spiritual adulthood we achieve gives us the power for more and greater decisions from the testing of suffering for the sake of God’s blessing.

Spiritual independence means we never equate our happiness with entertainment or any form of stimulation or even with our enjoyable relationships; we always relate our lives to our spiritual destiny and our spiritual destiny is God alone or it’s nothing!

The wise in heart are believers who, having reached spiritual self-esteem and spiritual independence, have a mature sense of authority-orientation due to their impersonal love and a chattering fool is not someone who talks too much but a person whose speech is prideful.

Proverbs 13:11 “Dishonest money dwindles away but whoever gathers money little by little makes it grow.”

This means that when God prospers us, we’re prospered but when God doesn’t prosper us and we try to take shortcuts to make money while neglecting or rejecting biblical truth standards, whatever we make will waste away.
